DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

Located at 116 Greene Street, the house stands at the southeast corner of the intersection of Winton Place on the west side of Wills Creek in Cumberland, Allegany County.

The house is a two and a half story brick structure with an end hall plan two rooms deep and double end chimneys on the west wall. The end walls extend above the roof forming parapets presently capped with terra cotta. A brick cornice runs across the facade. The front (north side) doorway has a single light transom, panelled framing, and door with two small panels and a large light above, not original. The principal windows have double hung wooden sashes with six-over-one lights, probably altered about the turn of the century. The windows have brick flat arches and wood sills. The brick are laid in Flemish bond on the facade and Common (5 stretchers to one header) on the sides. A later addition is attached to the back or south side.

**STATEMENT OF SIGNIFICANCE**

The house at 116 Greene Street is representative of the classically influenced middle class domestic architecture of the mid nineteenth century in Cumberland. Rows of houses of this type with symmetrical facades in detached and semi-detached, double form with parapet or step end gables were being erected in the city in the 1830s - 1850s period. Few of the houses remain in original condition. Most of the houses were altered with the change of styles and/or use of the building.
